SUMMARY

Aspiring AI & ML Engineer with hands-on experience in Python, machine learning, and data analysis through 3+ academic projects and a 2-month industry internship, working on data preprocessing, model training, and evaluation to support real-world AI/ML workflows.

WORK EXPERIENCE

● INTERNSHIP EXPERIENCE

🧱 AI Data Quality Analyst Intern

Rooman Technologies, Bengaluru | Duration: 2 Months

- Validated 5,000+ data records
- Reduced dataset errors 30%
- Labelled ML training data
- Prepared ML-ready datasets

● ACADEMIC PROJECTS

🧱 Doctor Appointment Booking System

Technologies: Python, Web, DB

- Built end-to-end system
- Supported 50+ users
- Streamlined appointment scheduling
- Managed database records

🧱 Automated Quality Control System for Manufacturing Defects

Technologies: Python, ML, Image Processing

- Trained on 1,000+ images
- Achieved 85% accuracy
- Computerized defect detection
- Minimized manual inspection

EDUCATION

- B. Tech – CSE (AI & ML)
  Kuppam Engineering College
  (2022–2026)
- Intermediate (MPC)
  Govt Junior College, Uravakonda
  CGPA: 6.5 (2020–2022)
- Secondary School Certificate (SSC)
  Z.P. Girls High School
  CGPA: 9.0 (2019–2020)

SKILLS

- Python
- C
- SQL
- Java(Basic)
- Machine Learning
- Data Analysis
- Problem Solving
- Communication

CERTIFICATIONS

- Python Workshop
- AI Data Quality Analyst Internship – Rooman Technologies
- NPTEL Certification – Introduction to Composites
- Full Stack Development (MERN) – Internship Certificate (2 Months)

LANGUAGES

- English (Professional)
- Telugu (Native)
- Kannada (Basic)
- Hindi (Conversational)
